

MARMALADE  
— OF LONDON —  
MOSNEY MILL BOTANICALS

## Marmalade of London Mosney Mill Botanicals range

At Marmalade and Mosney Mill we share a love of the English countryside and the endangered Bumble Bee. We have collaborated to create this beautiful collection called Marmalade Mosney Mill Botanicals. The fragrances are quintessentially English, bursting with floral notes and all lovingly packaged using Mosney Mill's gorgeous illustrations.

We continue to produce all our products without any animal testing and we are continuing with our commitment to make everything we do recyclable, reusable or sustainable.

The range is also good news for bees, as we are donating 5% of the gross profit from all trade sales to The Bumblebee Conservation Trust, more details about this amazing charity can be found at.

Proudly supporting 2020/21
